To Whom It May Concern:

On several occasions recently we have had the pleasure of working with Mr. Jim Turner and his team at Turner Business Appraisals, Inc. They have worked with us on both the Equipment Appraisals and the Business Appraisals for our clients financing needs and we have been very happy with their engagement and communication throughout the process. Our clients in NC and SC have also been very happy with their professionalism and knowledge.

After providing Mr. Turner and his team with the information needed, and a brief introduction to the client, they took over and did a great job completing a timely and professional appraisal package. Their reports are presented back to us and the client in a very nice "bound", hardcover format that truly gives the client comfort that their money is well spent working with this group. Our Credit team is also impressed with the communication and quality of work performed by Mr. Turner and his team.

I look forward to our next project with Turner Business Appraisals, Inc and I will be recommending them to my colleagues and business associates.

Sincerely,

Keith L. Pillow
